

K-LOVE radio is important to me because it plays contemporary Christian music in places that don't have any access to this type of uplifting music in our hectic days. With the imposition of LPFM stations, this would be a HUGE loss for the United States. K-LOVE radio reaches thousands upon thousands of listeners who NEED this station. This station is family-focused and NEVER needs to be "bleeped". It is safe for the WHOLE family! Our children NEED good healthy music that does not revolve around who's sleeping with whom. These Low-Power stations may cut off MY station. I personally NEED this station in my EVERYDAY life! Please do NOT let LPFM stations push MY station off the air in my area! Thank you for your consideration in this matter.
